

The Right Connection™

Bayonet Type Dry Disconnect Rubber Caps and Plugs

Dixon Bayco introduces new rubber caps and plugs for Bayonet series couplers and adapters

Rubber caps are designed to fit snugly over the BA series Bayonet 2" and 3" adapters. They keep dirt and debris out preventing build up on the sealing surface that will cause seals to fail prematurely. The caps have a stainless steel chain to secure them to the adapter chain lug.

Rubber plugs are designed to fit snugly into the nose of BS, BSS and BC series Bayonet 2" and 3" couplers. They keep dirt, debris and water out of the coupler, preventing build up on the sealing surface that will cause seals to fail prematurely. The plugs have a stainless steel chain to secure them to the coupler. The use of these plugs can reduce the amount of contamination that can collect in the coupler area.

- simple to use
- low cost
- durable and flexible rubber
- stainless steel chain included
- prevents contamination of product

Part #	Description
BAC-200	2" adapter cap
BAC-300	3" adapter cap
BCP-200	2" coupler plug
BCP-300	3" coupler plug
