

Blower Manifold Assembly - 3090MADC-82 Series

Application:

- Dry bulk blower

Sizes:

- 3" and 4" NPT

Materials:

- cast aluminum
- white silicone seals

Features:

- 3090MA swing check manifold with blower relief valve, dust cap assembly and TTMA x 3" or 4" NPT thread adapter
- one assembly with all components needed for installation directly on the blower
- Dixon Bayco swing check manifold
- Dixon Bayco blower relief valves your choice of **18 PSI** or **20 PSI**
- dust cap with lanyard
- easy to inspect and rebuild check valve
- spring and pivots are contained, cannot enter air stream

Specifications:

- maximum operating temperature: **400°F (204.4°C)**
- 800 to 1700 CFM

Part Number	Description
3090MADC-82/18	check assembly with 18PSI relief valve and 3" NPT inlet thread
3090MADC-82/20	check assembly with 20PSI relief valve and 3" NPT inlet thread
3090MADC-82/18A	check assembly with 18PSI relief valve and 4" NPT inlet thread
3090MADC-82/20A	check assembly with 20PSI relief valve and 4" NPT inlet thread
