## FloTech® FT295 Alarm Interface Module

Designed to easily connect to the float or non-IS relay output on any FloTech Onboard Monitor.

## Application

- Used in trans-loading between mobile tanks or remote fix storage tanks and a cargo tank
- Also used in pump applications

## Features

- Provides a visual and audible alarm
- Suitable for use in hazardous locations and connections to agency approved onboard monitors
- · Compatible with any of the popular onboard monitors in use today
- Provides multiple sets of form C relay contact with both "normally open" and "normally closed" contact sets
- Switch allows operator to manually turn the alarm on and off when not in use
- · Non-corrosive and weather-tight enclosure
